

## **To All Of Our Providers,**

A number of institutions have mandated that all “non-essential” infusions be directed away from the hospitals in the wake of the COVID-19 pandemic.

At Specialty Infusion, we are here to support you and your patients that may need urgent infusions in an out-patient setting.

- Our experienced coordination team is capable of expediting processing of referrals and prior authorizations should a patient’s care be directed to Specialty Infusion.
  - Our nurses and nurse practitioners are experts in infusion and injection administration and value your patient’s safety and well-being.
  - We also provide comfortable and private settings in [5 convenient locations](#) that are open 7 days a week with evening hours and quick and easy scheduling.
-

---

**We are staying as up to date as possible on what the COVID-19 Emergency Declaration means for emergent medical treatment - specifically, as it pertains to those needing infusion therapy.** All of our Specialty Infusion centers have implemented thorough safety protocol measures to ensure the well-being of your patients and our providers administering treatments. We are confident that should your patients need our help, we can provide exceptional care outside of the hospital without disrupting their important infusion therapy. Please do

not hesitate to call or text us at [212-776-9090](tel:212-776-9090) or email us at [info@specialtyinfusion.com](mailto:info@specialtyinfusion.com).

Your partner in patient care.
